EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James Scheller on January 12, 2005.

The application has been amended as follows: Please cancel claims 1-41 and 60-83.

2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because several Figures are shown to have been hand drawn on graphing type of paper. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

3. The following is an examiner's statement of reasons for allowance:

In regards to independent claim 45, the prior art of record, Cheung does not disclose a selector logic circuit that is coupled to receive signal from the conductive layer through the at least one interface pad to cause the selector logic to select between the first function and the second function.

In regards to dependent claims 46-51, the claims are allowed as they depend upon an allowed independent claim 45.
